

What is Save used for?
How do you specify the
output file?

The image shows a software window with a light gray background. At the top, there is a menu bar with four items: "Open", "Save", "Log", and "Exit". Below the menu bar, the text "Output Path:" is displayed. Further down, the text "Log Path:" is displayed. At the bottom of the window, the text "Where is the status displayed?" is shown in red.

Open Save Log Exit

Output Path:

Log Path:

Where is the status
displayed?
